Why use Brick?

## Business payment, simplified

Designed to meet the needs of high-volume, frequent, great accuracy, time-sensitive nature of business transactions

### Save time

Transaction input process using familiar Excel files saves up to 3 minutes compared to one-by-one input.

### Trim costs

Aggregating various payment channels by Brick's intelligent machine cuts transaction costs by up to 60%.

### Minimize error

Smart routing technology, auto-queuing, and pre-verification of recipients reduce the risk of human error.

### Always available

There is no cut-off time thanks to the smart load distribution, transfers can be made anytime, anywhere.

Product for Business

## Payment as your dreamed it

Send Money

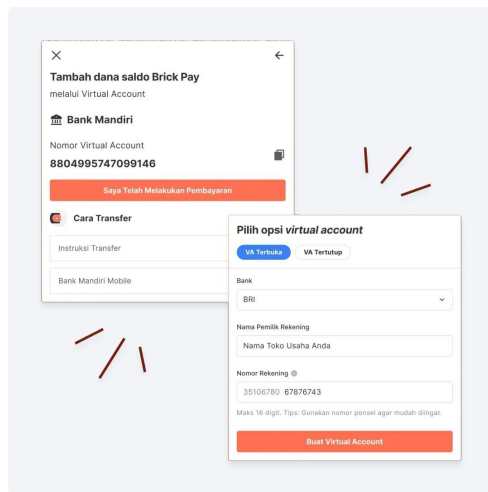

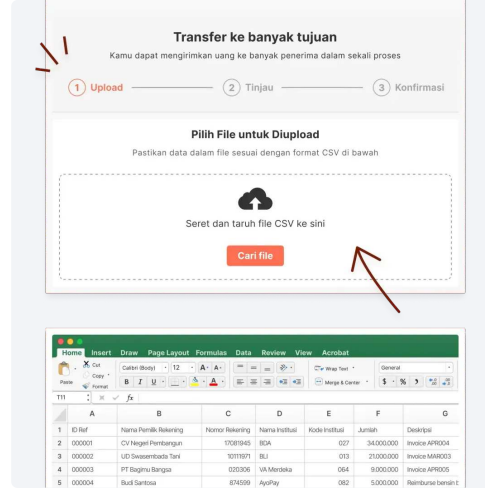

Bulk transfers that are more

# powerful than business banking

Send money to tens of thousands of bank accounts, virtual accounts, and e-wallets in just one transaction. Easy and concise, just by uploading an Excel file.

- ✓ 140+ institutions
- ✓ Up to 20,000 transactions
- ✓ Up to 40% cheaper than BI-FAST
